

## AN IMPORTANT MESSAGE FROM THERMOGRAPHY CLINIC KITCHENER

## April is Breast Thermography Awareness Month!

Greetings to all my clients (& future clients!) from Thermography Clinic Kitchener Inc! Anticipating my upcoming two-year "*cancer free*" celebration on April 13th, I am thankful for my early detection through [Breast Thermography imaging](#). For those of you who aren't aware, I had cancer cells that had not yet developed into a lump, and no lymph node involvement. Having the cells removed early, prevented a lump from developing.

I feel the best way for me to *celebrate* is by being diligent in reminding all of you how important it is to have [follow-up Thermography imaging](#). If you haven't made your appointment yet this year, I encourage you to contact me as soon as possible. Without follow-up imaging, we aren't able to track the direction of your breast health.

**[DON'T WAIT FOR THE LUMP. BOOK YOUR APPOINTMENT NOW!](#)**

Warm Regards,

Mary Kubisewsky, CTT
